**AN ORDINANCE OF THE CITY OF MOUNT
VERNON, NEW YORK, ESTABLISHING THE
ELECTRIC VEHICLE (EV) CHARGING
INFRASTRUCTURE POLICY TO PROMOTE
SUSTAINABLE TRANSPORTATION, IN
COMPLIANCE WITH STATEWIDE CLIMATE
MANDATES, AND PROVIDING FOR
ENFORCEMENT AND EFFECTIVE DATE**

Whereas, in a letter dated May 22, 2025, the Commissioner of the Department of Public Works formally requested authorization for the City of Mount Vernon Electric Vehicle (EV) Charging Infrastructure Policy; and

Whereas, the State of New York has mandated that all new passenger vehicle sales be zero-emission by 2035, as part of its commitment to reducing greenhouse gas emissions and advancing climate justice; and

Whereas, the City of Mount Vernon is committed to achieving its own sustainability goals and recognizes the critical role of electric vehicle (EV) charging infrastructure in facilitating the transition to clean transportation; and

Whereas, statewide and regional projections indicate a dramatic increase in electric vehicle ownership within the City of Mount Vernon, requiring proactive measures to support this transition; and

Whereas, retrofitting EV infrastructure after initial construction can cost up to 75% more than installing it during the design and build phases, imposing undue financial burdens on future residents, businesses, and developers; and

Whereas, integrating EV charging infrastructure into local building and zoning standards will position Mount Vernon at the forefront of clean transportation readiness and align with New York State Energy Research and Development Authority (NYSERDA) projections and funding priorities; and

Whereas, this policy will promote environmental equity by ensuring that low- and moderate-income households in multi-unit housing developments are not left behind in the transition to zero-emission vehicles; and

Whereas, the neighboring municipalities of New Rochelle, Yonkers, and White Plains have already adopted EV infrastructure policies, highlighting the urgency for Mount Vernon to codify its standards to remain competitive and consistent with regional best practices; and

Whereas, the City Council finds that adopting the EV Charging Infrastructure Policy is in the best interest of the health, safety, and general welfare of the residents of Mount Vernon; **Now, Therefore, Be It Resolved That**

The City of Mount Vernon, in City Council convened, does hereby ordain and enact:

Section 1. Title and Purpose. This Ordinance shall be known as the “City of Mount Vernon Electric Vehicle (EV) Charging Infrastructure Policy.” The purpose of this Ordinance is to:

- C. EV-Ready Space** - A parking space that has the electrical panel capacity, raceway/conduit, and wiring in place to support future installation of an EV charging station.
- D. Major Renovation** - Construction work that includes significant alteration, expansion, or reconstruction of an existing building, as determined by the Building Department.

B. Penalties for non-compliance include:

1. Issuance of stop work orders;
2. Civil fines as provided in the Mount Vernon Municipal Code;
3. Remedial measures at the City's discretion to achieve compliance.

Re: Referral for Adoption – Electric Vehicle Charging Infrastructure Policy

Dear Honorable City Council Members:

In alignment with New York State’s climate mandates and the City of Mount Vernon’s sustainability goals, I respectfully submit for your consideration the **City of Mount Vernon Electric Vehicle (EV) Charging Infrastructure Policy**. This policy aims to position Mount Vernon at the forefront of clean transportation readiness and ensure our built environment supports the rapid transition to zero-emission vehicles.

New York State has mandated that all new passenger vehicle sales be zero-emissions by 2035. In preparation for this statewide shift, municipalities are expected to update their local building and zoning standards to support EV adoption. Failure to act now will leave our city underprepared and place financial and logistical burdens on future residents, businesses, and developers. Retrofitting EV infrastructure later costs up to 75% more than installing it during initial construction. This policy avoids that inefficiency by requiring that EV charging infrastructure be installed—or at minimum, made “EV-ready”—during the design and build phases of applicable development projects.

Policy Highlights

The EV Charging Infrastructure Policy would:

- Mandate a minimum of one Level 2 EV charging station per 10 parking spaces for all applicable new construction and major renovations, both residential and commercial.
- Require single-family and small multi-family homes with dedicated driveways or garages to include at least one EV-ready space per dwelling.
- Enforce a phased approach to full EV infrastructure by requiring EV-ready conduit and panel capacity for remaining spaces not equipped with active chargers.

- Ensure ADA-compliant accessible EV charging spaces in all qualifying developments, with proper signage and layout.
- Integrate EV-readiness into the site plan review and permitting process, including enforcement through inspection and certification prior to issuance of a Certificate of Occupancy.
- Allow for limited waivers only in cases of documented technical infeasibility, while encouraging maximum compliance wherever practicable.
- Establish penalties and remedies for non-compliance, including stop work orders, fines, or remedial action at the City's discretion.
- Designate the Department of Buildings as the enforcement agency, with support from the Planning Department and Fire Marshal as needed.

Purpose and Benefits

This policy will:

- Support statewide decarbonization mandates and help Mount Vernon remain eligible for clean transportation funding and technical assistance programs from NYSERDA and other state agencies.
- Future-proof local development, reducing future costs for residents and developers.
- Advance environmental equity by ensuring that low- and moderate-income households in multi-unit housing developments are not left out of EV access.
- Support Mount Vernon's clean air and sustainability goals by encouraging a modal shift to zero-emission vehicles.
- Attract forward-thinking developers and businesses who expect modern infrastructure as a standard.
- Create local workforce opportunities in electrical, installation, and charger maintenance fields, especially if aligned with vocational training partners.

As of 2024, there are approximately 723 electric vehicles (EVs) registered to addresses in Mount Vernon, NY. According to regional trends and projections from the New York State Energy Research and Development Authority (NYSERDA), this number is expected to increase by over 400% by 2030. Our neighboring municipalities such as New Rochelle, Yonkers, and White Plains have already codified EV infrastructure policies to accommodate this shift. Additionally, codifying this policy helps eliminate unnecessary back-and-forth with developers during the site plan review and approval process. It provides a clear, enforceable standard that removes ambiguity and avoids case-by-case bargaining, ensuring fairness, consistency, and timely development approvals.

RE: INCREASING SALARY FOR LEAD SERVICE LINE FIELD COORDINATOR

Dear Honorable Council Members:

I respectfully request legislation be enacted authorizing the Board of Water Supply to increase the salary for the Lead Service Line Field Coordinator position.

This legislative request aims to achieve salary parity between the Lead Service Line Replacement Program positions and comparable roles within the City of Mount Vernon. Recent Memoranda of Agreement (MOAs) under collective bargaining agreements with CSEA and Teamsters have resulted in negotiated salary increases for various city positions. To maintain equity and competitive compensation, we propose increasing the Lead Service Line Field Inspector’s starting 2025 annual salary from \$52,000 to \$67,291 (Grade 6A Step 7), aligning it with CSEA Grade 6A, effective January 1, 2025.

This salary adjustment will be fully funded by the existing \$2 million grant from the New York State Environmental Facilities Corporation (EFC). The proposed increase was budgeted, approved by the NYS EFC, and is now subject to final approval by the City Council and the Board of Estimates and Contracts.

RE: INCREASING SALARY FOR LEAD SERVICE LINE ADMINISTRATOR

Dear Honorable Council Members:

I respectfully request legislation be enacted authorizing the Board of Water Supply to increase the salary for the Lead Service Line Administrator.

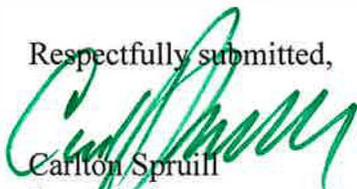

Following an amendment to the Civil Service duty statement, the Department of Human Resources (“HR”) has recommended a new salary—outlined below—at Grade 13 of the CSEA salary chart. This recommendation is based on HR’s assessment of the position’s duties and responsibilities. Per this recommendation, we propose increasing the Lead Service Line Administrator’s 2025 annual salary from \$85,000 to \$102,391 (Grade 13, Step 9), aligning it with CSEA Grade 13, effective January 1, 2025, to reflect the additional responsibilities outlined in the amended duty statement.

This salary adjustment will be fully funded by the existing \$2 million grant from the New York State Environmental Facilities Corporation (NYS EFC). The proposed increase was budgeted, approved by the NYS EFC, and is now subject to final approval by the City Council and the Board of Estimates and Contracts.

Lead Service Line Administrator
\$85,000 to 102,391 - Grade 13 Step 9 (Min: \$71,385.08 To Max: \$106,266.83)

Thank you for your attention to this critical matter. If you have any further concerns, please feel free to contact me.

Respectfully submitted,

Carlton Spruill
Commissioner

Dear Honorable City Council Members:

It is requested that legislation be enacted approving Delinquent taxes and Interest for Westchester Muslin Center, Inc., due to the following reason: As a result of "Clerical Error" the subject property having been included in the "taxable" portion of the 1994 City Assessment Roll for year City taxes.

Dear Honorable City Council Members:

It is requested that legislation be enacted approving Delinquent taxes and Interest fees for Ms. Tanya Hairston, due to the following reason: As a result of “**Clerical Error**” the subject property having been incorrect entry of assessed valuation as a commercial property instead of a residential property and at a higher assessed value.

The incorrect property type classification per NYS code as “**418**” which is defined **Commercial as Inns, Lodging, Boarding house**. The correct property type class is “**220**” which is defined as **Residential Two-Family dwelling**.

The assessment base on incorrect property class code on the 2011- 2020 Final Assessment rolls.

RE: Request for setting a Public Hearing for the approval of the five-year Housing and Urban Development (HUD) Consolidated Plan for 2025-2029 and Annual Action Plan for 2025. For approval at the June 11TH City Council meeting.

Honorable Councilmembers:

The Department of Planning and Community Development (PCD) requests that the City Council set a public hearing for June 25, 2025, to adopt the Consolidated Plan for 2025-2029 and the 2025 Action Plan. This Public Hearing is a required step by HUD in the adoption of the Consolidated Plan. The five-year Consolidated Plan is the citizen feedback mechanism that facilitates the creation of an Annual Action Plan, the plan that determines how approximately \$2,000,000 of annual grant funds are to be spent in FY 2025.

The Consolidated Plan was developed with extensive feedback from the public with well over 200 residents and stakeholders participating over the last four months. The document is available at this link for a more detailed review. (<https://cmvny.com/DocumentCenter/View/10710>).

The Timeline for the Consolidated Plan:

- 12/24 through 5/25 Solicitation and compilation of survey results into a draft plan
- 6/3/2025 Draft Plan available online and noticed public comment hearing opening
- 6/3/25 through 7/7/2025 Open comment Period for Draft Plan
- 6/11/2025 Notice of Public Hearing for City Council
- 6/17/2025 URA Adopts Draft Consolidated Plan
- 6/25/2025 City Council Public Hearing for Plan
- 7/7/2025 Closing Hearing and comment period and comments are incorporated into plan
- 7/8/2025 Plan is submitted to HUD
- 9/1/2025 New Fiscal Year begins

The Plan findings are that there are four primary goals for the coming five-year program cycle:

1. Providing quality of life to Mount Vernon residents,
2. Development and preservation of affordable housing,
3. Invest in public facilities and infrastructure,
4. Provide effective program management.

The City of Mount Vernon currently is estimated to receive funds under two programs: Community Development Block Grant (CDBG) for \$1,550,000 and the Home Investment Partnership Grant for \$600,000.

The 2025 Action Plan targets the CDBG funds for infrastructure improvements and the home funds for affordable housing.

After the City Council closes the hearing on June 25, 2025 and adopts the Plan it will be submitted to HUD for approval in early July. The funds will be available via the Urban Renewal Agency (URA) on September 1, 2025. Failure to adopt the Plan will prevent the City from receiving these funds in September 2025. Therefore, Staff asks that the City Council vote to hold a hearing on June 11, 2025 and to hold a hearing and adopt the Consolidated Plan and Action Plan on June 25, 2025.
